**PMGT 018: Park Planning & Design**

This course provides an introduction to park planning and design. Students have opportunities to learn about how to design facilities within a park environment. Other topics include the materials and techniques used for constructing ecologically sound facilities that fit into a specific park environment. Students also have opportunities to learn how to integrate the needs of park visitors with the natural and cultural resources of the park, and learn about environmental assessments needed to plan and design facilities in parks.

Letter Grade

Units: 2

Lecture Hours: 32 – 36, Lab Hours: 0

Prerequisites: None

Co-Requisites: None

Advisory: None

Transferable to CSU only
