

The Interior Design Professional Certificate is a comprehensive, professional curriculum that provides courses focusing on the vital and basic aspects of interior design. In this certificate, emphasis is placed on the fundamental relationship of interior design and the visual and decorative arts. The Interior Design Professional Certificate offers specialty training that promotes professional development related to successful course completion, alternative basic skills, and enhanced workforce development. When available and appropriate, students may be required to participate in design-related competitions to reinforce the classroom learning experience. Students completing this certificate are able to demonstrate skills and apply the knowledge necessary to achieve entry-level occupation in the professional interior design field. The Interior Design Professional Certificate provides career and technical education to prepare students for career opportunities in: interior design firms, architectural firms, kitchen and bath design firms, retail finishes and furnishings stores, commercial furniture dealerships, f
